ORDER AMENDING ORDER NO. 74-134  
TO ADOPT AMENDED WASTE DISCHARGE  
REQUIREMENTS FOR:

MT. VIEW SANITARY DISTRICT  
CONTRA COSTA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region (hereinafter called the Board) finds that:

1. The Board on November 1, 1974, adopted Order No. 74-134 (NPDES No. CA0037770) prescribing waste discharge requirements for Mt. View Sanitary District (hereinafter called the discharger).
2. The Board on July 19, 1977, adopted Order No. 77-96, amending Order No. 74-134, requiring the discharger to submit conceptual plans by December 1, 1977, and a time schedule by April 1, 1978, to ensure compliance with items B.1.(e), D.2. and D.4.
3. The discharger currently discharges an annual average of 0.6 million gallons per day of wastewater from its treatment plant into Peyton Slough, a tributary of Suisun Bay, both waters of the United States. The existing NPDES permit expires on December 1, 1977.
4. This project involves the continued operation of a publicly-owned facility to provide sewerage service with negligible or no expansion of use beyond that previously existing. Consequently, this project will not have a significant effect on the environment based upon the exemption provided in Section 15101, Title 14, California Water Code.
5. The discharger and interested agencies and persons have been notified of the Board's intent to revise requirements for the existing discharge and have been provided with the opportunity to submit their written views and recommendations.
6. The Board, in a public meeting, heard and considered all comments pertaining to the discharge.

IT IS HEREBY ORDERED that Order No. 74-134 is amended as follows:

Provision E.7.

This Order expires on July 1, 1978, and the Discharger must file a Report of Waste Discharge in accordance with Title 23, California Administrative Code, not later than 180 days in advance of such date as application for issuance of new waste discharge requirements.

I, Fred H. Dierker, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on October 18, 1977.
